this handbook is structured in two parts it provides on the one hand a comprehensive synchronic overview of the phonetics and phonology including prosody of a breadth of romance languages and focuses on the other hand on central topics of research in romance segmental and suprasegmental phonology including comparative and diachronic perspectives phonetics and phonology have always been a core discipline in romance linguistics the wide synchronic variety of languages and dialects derived from spoken latin is extensively explored in numerous corpus and atlas projects and for quite a few of these varieties there is also more or less ample documentation of at least some of their diachronic stages this rich empirical database offers excellent testing grounds for different theoretical approaches and allows for substantial insights into phonological structuring as well as into incipient ongoing or concluded processes of phonological change the volume can be read both as a state of the art report of research in the field and as a manual of romance languages with special emphasis on the key topics of phonetics and phonology

when we re ill we trust in doctors to put our well being first but medicine s expanding capability and soaring costs are putting this promise at risk increasingly society is calling upon physicians to limit care and to use their skills on behalf of health plan bureaucrats public officials national security and courts of law and doctors are answering this call they re endangering patients veiling moral choices behind the language of science and at times compromising our liberties in the hippocratic myth dr m gregg bloche marshals his expertise in medicine and the law to expose how doctors are pushed into acting both as caregivers and cost cutters compromising their fidelity to patients politics keeps doctors from giving war veterans the help they need insurers and hospital administrators pressure

doctors to discontinue life saving treatment even when patients and family members object medicine has become a weapon in america s battles over abortion child custody criminal responsibility and the rights of gays and lesbians the war on terror has exploited clinical psychology to inflict harm challenging provocative and insightful the hippocratic myth breaks the code of silence and issues a powerful warning about the need for doctors to forge a new compact with patients and society

studies in diachronic linguistics increasingly acknowledge that linguistic change is highly context dependent and somehow tied to constructions as linguistic units this is the first volume to investigate the role of constructions and the potential of constructional approaches in linguistic change the contributions in this volume comprise both theoretical and empirical studies all of which are accessible for a general audience while some contributions explicitly aim at comparing and unifying concepts from both traditional grammatical theories and recent construction grammar approaches others offer detailed case studies of exemplary problems from a constructional point of view the papers offer a cross linguistic perspective and deal with a number of different language families ranging from germanic to austronesian

the job interview is probably the most important step you will take in your job search journey because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview petrogav international has prepared this ebooks that will help you to get a job in oil and gas industry since these questions are so common hiring managers will expect you to be able to answer them smoothly and without hesitation this ebook contains 290 questions and answers for job interview and as a bonus web addresses to 295 video movies for a better understanding of the technological process this course covers aspects like hse process mechanical electrical and instrumentation control that will enable you to apply for any position in the oil and gas industry

the cognitive rigor matrix superposes two of the most common tools used in k 12 education bloom s revised taxonomy and depth of knowledge this matrix has been adopted by numerous state departments of education and national organizations to evaluate the rigor of educational materials the matrix also offers a powerful ability to help teachers plan and carry out standards based lessons that best support student learning this book aimed at secondary school teachers of all subjects provides a systematic means of leveraging the rigor cube to develop rigorous standards based lesson plans the approach employed in this book includes the development of culminating activities for students to demonstrate their learning identification of standards based lesson content selection of potentially effective instructional methods and student questioning strategies special methods for supporting students who are deficient in their background knowledge without undermining the rigor of lessons are also included sample lessons are included that illustrate every step of the lesson planning process from start to finish these sample lesson plans address state content standards related to the common core state standards both math and english language arts next generation science standards career technical education standards and art

comparing law to the american practice of common courtesy this book explains how our courts not only survive under conditions of suspected hypocrisy but actually depend on these conditions to function

this volume considers the future of science learning what is being learned and how it is being learned in formal and informal contexts for science education to

do this the book explores major contemporary shifts in the forms of science that could or should be learned in the next 20 years what forms of learning of that science should occur and how that learning happens including from the perspective of learners in particular this volume addresses shifts in the forms of science that are researched and taught post school emerging sciences new sciences that are new integrations futures science and increases in the complexity and multidisciplinary of science including a multidisciplinary that embraces ways of knowing beyond science a central aspect of this in terms of the future of learning science is the urgent need to engage students including their non cognitive affective dimensions both for an educated citizenry and for a productive response to the ubiquitous concerns about future demand for science based professionals another central issue is the actual impact of ict on science learning and teaching including shifts in how students use mobile technology to learn science

v 1 the profession of social work v 2 human behavior in the social environment v 3 social work practice v 4 social policy and policy practice

this book illuminates the sometimes obscure processes through which the news is currently created using unprecedentedly robust and comprehensive evidence the innovative methodology of the face to face reconstruction interview which was developed and implemented by the author enables quantitative depiction of different aspects of news making these processes could not be accessed systematically by traditional research methods primarily because of source confidentiality and their covert scattered abstract and evasive nature although the study focuses on the israeli national press it is aimed first and foremost at addressing key questions that continue to trouble communities of journalists academics and journalism educators
